Sir:

In response to the office communication that was mailed to me on 03/21/2007,
please find my reply as to the correction.

Indication of election to particular claim group I or II and argument that new
claims 38 & 39 are not separable from the elected claim group begin on page 2.

Appn. Number 10/823,247 (Philippe Meert)

Page 2/2

I hereby elect group I of the claims.

I believe new claims 38 & 39 are not separable from the elected claim group I because the process as claimed cannot be practiced by another materially different apparatus since the subject matter and material structure of the apparatus as claimed in process claims 38 & 39 is the same as the apparatus in group I, and the apparatus as claimed cannot be used to practice another materially different process due to the specific embodiment and combined features in the apparatus.
